Dear Representative,

I am a survivor of an automobile accident. It was in 1999 and I was walking and got hit and the driver just drove away. I have been in recovery for 11 years. If Auto No-Fault was gone, I would have to live with my sister which would put a strain, both financially and mentally, on our family. I would have to depend on Medicaid which would increase our taxes. Please don't let this happen. SAY NO HB 4936!

Sincerely,

Don Gardner
